[Grace Kirk](#) I respect the decision made by Dr Keilloh and want to wish him luck in whatever he goes on to become. I also want to thank him from the bottom of my heart, as without him I would not have had my depression made apparent and steps not made to help me, but he saw it and made sure that I was taken care of and had everything that I needed to carry on my life as a normal person again. [June Hesp](#) Very sorry for such a terrible decision a wonderful Doctor lost such a shame - good luck in the future Bob & June Hesp

[Heather Swain](#) I'm sure all of your supporters feel very saddened by the news, just as I do. I think the injustice of it all is what gets to me the most. It makes me so angry the British army can get away with this and that one doctor can be held to blame. Good doctors are hard to come by and you were certainly a credit to your profession. Good luck in your continued path of life.

[Paulandlesley Wells](#) would like to wish you all the very best of luck for you and your families future hope you find happiness, you will be very much missed by us all

[Gillian Woodrow](#) This is very sad news but we support your decision. You were one of the most trusted, caring and supportive doctors at our practice. [Esther Day](#) Can't believe you are a great person one of the best. You will be missed love you all so very much such a fab family

[Andrea Mason](#) Why oh why does one man and his family have to take the blame for the MOD's failings.

[Jean O'Hanlon](#) When the NHS is crying out for decent doctors, this is disgraceful. Dr Keilloh, you are a well respected man, whom the people of Northallerton have taken to our hearts. Hold your head up high, you have nothing to feel ashamed about. I hope you sue MOD for the loss of your career, for they must take responsibility for sending you into a war zone without the proper training. You will be missed from Mayford House, and missed by all of your patients. My family and I send our very best wishes to you and your family. Thank you for all you have done for me, you are the BEST GP I have ever met

[Bettina Bell](#) what a big loss of a fantastic doctor, good luck for the future

[RobandLou Brooks](#) This is so very very sad to hear. My husband and I would not have been able to have our second daughter if it wasn't for you and your expert help. A very sad day for the medical profession, you were by far the best Dr in Mayford House who they will never be able to replace! The worlds gone mad!!! Take care, love and best wishes to you and your family. The Brooks Family

[Jemma Norman](#) you were the best dr by far our town has lost an amazing dr that had such a massive impact on our community we respect your decision all the best for the future for you and your family

[Fiona Binns](#) Dr Keilloh, you turned my whole life around and made it worthwhile living, I will be eternally grateful to you for that. Be proud of all the good that you did, we know the truth and you are an inspiration to the NHS, if there were more Doctors like you, the world would be a better place. Good luck to you and your family now, in your new chapter of your life, that's what's important. You will always be missed, but most importantly remembered for the warm, kind, caring and honest man you are

[Liz Bridge](#) Dr Keilloh would just like to say a very big thank you for all your help and support you gave me and my family over the years while I have been ill you gave me a lot of strength. You're the best doctor I've ever known. We wish you and your family all the very best in whatever you choose to do in the future. You will be truly missed

[Vicky Blyth](#) It's a sad day u were and still are a kind caring person u help me and my son and I thank u for that I wish u good luck in what you do next

[Maureen Johnson](#) Sad day I respect your decision but you will be sadly missed thank you for all your help & support over the past 5yrs good luck to you & your family in the future

[Gemma Gibson](#) My GP has always been Dr R but I am amazed at the wonderful support that has been shown to Dr Keilloh and after listening to views, opinions and looking at facts with a human eye and a little empathy I can only say what a horrendous judgement to make, based upon what seems like a very unjust and unfair way to reach a decision. To claim that somebody failed in their primary years of career to meet certain standard when obviously, they went into a situation poorly prepared by guiding authorities, is to me anyway, a massive failure to recognize that blame must surely sit at a higher level, or at least culpability. Take pride Dr Keilloh in how your community and patients regard you, take them as your judgement and move forward with your family to a new and hopefully happy era in your life!

[Theresa Cleminson](#) I would just like to take this opportunity to say thank you with all my heart for what you have done for me and my husband over the last 3 and half years after we had the worst possible start to married life. You were there whenever I needed you whether it be in person or on the end of the phone. You are THE most understanding GP I have ever met. My love and best wishes go to you and your family. Good luck for the future, all our love The Cleminsons x x

[Sara Rowland-jones](#) I feel deeply saddened by this news however I respect your decision. I feel that u have been let down on many counts. This country and its laws are backward and the wrong people are held to account. U have made such a difference to so many people including myself . I want to wish u all the best and to ur family.

[Pam Myers](#) A very sad day for us all. I am amazed that you, Dr.Keilloh, are now considered unfit to practice as a G.P., even though you have done an amazing job up until now. My question to this decision is this " shall I now take legal proceedings against the Armed Forces, the Public Enquiry Panel, the NHS and the MPTS for allowing you to practice as a G.P, taking care of my health, for the past NINE years?" If I had the finances, I most certainly would! It's disgusting! Yes your integrity has been questioned by these panels, but you haven't killed anybody, you clearly tried to save a life, and save lives whilst serving in the army.

I am so very sad for you and your family, and can only wish for the best for your future. You are a wonderful, kind and considerate person, a great role model in our community. I am deeply saddened and infuriated by the decision made, and can only hope that life will be kinder to you in the future.

Thank you Dr.Keilloh for all your help and support, care and attention that you have given me as a patient. I will miss you terribly and actually feel that I shall leave the practice as a patient, as I do not

have faith in the majority of the other G.P 's practising there. Take care Dr. Keilloh and THANK YOU again.

[Lynda Griggs](#) What a difficult decision dr keilloh has had to make, my good wishes go to him and his family. I also think that it will be a massive comfort to the keilloh family to know how much dr d is valued by his patients and the community he serves. Yet again the authorities make me ashamed.

[Laura Norton](#) A very sad day but fully respect your decision. You were by the far the best dr around who would do your utmost for everyone of your patients. I wish you the best of luck for you and your family in the future. And a big massive thank you for what you have done for us. Laura

[Kay Cunnington-Townsend](#) Pam Myers, well said, maybe our MP could help with this decision on bringing the MPTS to book for letting the Doctor (they now find unfit), to practice for nine years.

[Jackie Walton](#) Dr Keilloh and family...my heart goes out to you. I totally respect your decision, of course, I feel very sad to lose you as my doctor. Thank you so much for all you've done for myself and everyone you've helped. I hope in time, all of this can be laid to rest, that you and your family have a bloody (sorry for swearing, at times it's needed!) good holiday somewhere away from everything to recharge and best of luck with where your path takes you.

[David Willows](#) Dear Dr Keilloh -We are amazed about the decision that has been made that you are not fit to practice as a GP. In our opinion you are a very caring and a compassionate Doctor. We have appreciated your care, diagnosis, advice and help you have given while being your patients. We miss you very much and would like to say a very big THANK YOU! THANK YOU! Praying that you and your family will find strength, help and direction for the future.

[Kimberley Kimbo Sanders](#) Such a shame, an entire medical career gone to waste because of this. I am totally devastated so cannot imagine how Dr Keilloh and his family are feeling. He was an amazing Doctor, kind, helpful and empathetic. Such a disgrace that he is being used as a scape goat. I wish Dr Keilloh and his family all the best for the future and hope in time he can move on from this. Thank you for everything you have done for me and the community. Best wishes

[Alison Clarke](#) like all the others here I am so sad about your loss. You listened and helped me when I really needed it in a way that very few doctors would. You were the most caring doctor I've ever come across. I hope the future brings better things for you and your family. In friendship.

[Anna Kempster](#) A travesty from start to finish and a waste of a fine and dignified doctor. Our thoughts and best wishes are with you both and your family.

[Jean Wilson](#) Am so sorry that Dr Keilloh will not be returning - he is a fantastic caring and sympathetic doctor. He will be sadly missed. I appreciate all the care you gave to John Massey during his final years. You are the best doctor I have ever known and wish you and your family well in the future.

[Vanessa Reed Hodgson](#) This truly is a sad day, you were a brilliant Doctor and I will miss you very much, you were the best Doctor I have ever had and I cannot imagine anyone filling your shoes. I wish you and your family lots of luck and best wishes for the future and hope that you will find happiness soon, Love Vanessa Hodgson

[Cheryl Storey](#) I am so very, very sorry to hear this news. It is a true loss to your patients and colleagues at Mayford House Surgery. You listened to me with sympathy and understanding and you were always my "Doctor of choice" when visiting the surgery for both myself and my sons. I pray you and your family are able to put this behind you. Take a well deserved and much needed holiday and then go on to build your lives for the better. Good luck on your chosen future path.

[Shirley Pearson](#) What a shame about the decision . Dr Keilloh was a fantastic GP. Professional, caring and kind. He will be sadly missed by my family and I am sure by many many people in Northallerton. I would like to take this opportunity to thank you for the care you have given me over the years and wish you and your family good health and happiness and hope that there is a brighter future for you around the corner. Shirley x

[Robert Upshall](#) I think a lot of doctors will be thinking 'there but for the grace of God go I'. One wonders if any of the members of the tribunal have had experience of practising medicine in a battle zone and the pressures put on doctors in that situation. It does seem an extreme sanction in the circumstances - the only good to come of this, and I'm sure that's what the MPTS wants to see, is that doctors will feel emboldened to stand up to the Army and the Police and any other arm of the State that tries to bully them into doing things against their better judgment - after all no sanction is worse than losing your vocation.

[Ian Hodgson](#) This is a very sad outcome and one that has affected a lot of people in and around Northallerton, Just like to say thank you for all you did for me and my family I wish you all the luck in the future and like to say how privileged we were to have met you

[Gillian Woodrow](#) I agree with Pam Myers. Surely this is a safeguarding issue against the armed forces and the MPTS. If Doctor Keilloh had done something so wrong why was he allowed to practice for so long putting his patients lives at risk? Also if has not put a foot wrong since. It really stinks.

[Viv Gibson](#) It's such a shame that you won't be returning to the surgery, you are a great doctor and have been treated appallingly by the MPTS. I wish you and your family all the best for your future in whatever direction life takes you. Good luck!

[Fay Isobel Curran](#) In an age where patients are viewed as statistics and where doctors seem to be more concerned with meeting targets, Dr Keilloh was an exception. He was the type of GP that is rarely found these days a caring, friendly, approachable and thorough GP who always took always took his time to listen. I'd like to thank him for all his support over the last few years and wish Dr Keilloh and his family all the best for the future.

[Carol Gordon](#) I understand your position, but feel gutted just the same. I just hope that the wealth of support shown to you by colleagues, former patients and members of the public will be borne in mind by other professional academies, when you feel able to build your career in another direction. Surely your medical qualifications remain intact? You will reach new horizons, stronger from what you have endured and will attain so much more...All the very best! Really hope to bump into you again someday.

... AND SO IT GOES ON...
